

Talson Air Cargo  
**TAG ISO**  
 Technical Sheet

**TECHNICAL DATA**

<b>H5</b>	5 <sup>th</sup> Wheel Height	950 mm
<b>WB</b>	Wheel Base	7.455 mm
<b>IL</b>	Inner Length	13.435 mm
<b>L</b>	Total Length	13.610 mm
<b>IW</b>	Inner Width	2.500 mm
<b>W</b>	Total Width	2.600 mm
<b>H-F</b>	Front Overall Height	3.985 mm
<b>H-R</b>	Rear Overall Height	4.060 mm
<b>IH-F</b>	Front Internal Height	2.950 mm
<b>IH-R</b>	Rear Internal Height	3.030 mm

**TECHNICAL CAPACITIES**

Tare Weight	8.850 kg
Total Permissible Weight	34.000 kg
Technical Possible Axle Load	24.000 kg
Technical Possible King Pin Load	10.000 kg

**SPECIAL FEATURES**

- Aluminum outside panels
- Roller bed auto-down safety function
- GRP inside panels
- EN 12642 - Code XL Certificate

# Talson Air Cargo

## TAG ISO

### Detail Brochure

#### CONCORDE ROOF

Mega air cargo trailers are fitted with a slanted roof. This ensures that the trailers are not higher than 4.000 mm at the front.

#### KICK PLATE

Aluminium kick plate with 250 mm height on the side panels provides high impact resistance.

#### ALUMINIUM SIDE PANELS

Talson's self-supporting box body construction is manufactured using a special aluminium sandwich design. The outer layer consists of high-quality aluminium sheets that are connected to the sub-structure and provide a lighter and brighter design. Aluminium side panels are made up between 10 to 12 separate plates allowing cheap and fast repair when needed. You can easily change the dented plate without touching the others.

#### ROLLERBEDS

Rollerbeds are integrated into the vehicle floors in order to facilitate speedy loading and unloading of loads. With Auto Down Safety rollers lower down into the floor automatically while driving for maximum load security.

#### PALLET STOPPER

There are 10 flip-up pallet stoppers inside the trailer, 2 per air cargo pallet section and 2 to protect the front wall. This offers maximum load security whilst driving.

#### PROTECTED FRONT PANEL

Front panel of the trailer is strengthened with a galvanised kick plate 500 to 1.000 mm above the floor.

#### INTEGRATED LASHING RINGS

Talson trailers are equipped with 26 lashing rings, 13 on each side, discreetly integrated into the vehicle floor to anchor heavy weights for maximum load security.

#### TALSON DOOR

Talson door is a container style door, designed to provide maximum strength at the rear and optimum load security. It improves durability and handling of the trailer. Also it can be easily equipped with electronic lock systems to enhance security.
